EDUCATION

University of Missouri | Columbia, MO | GPA: 3.97 *Expected Graduation: May 2029*
B.S. in Computer Science and B.S. in Data Science | Minor in Mathematics

WORK EXPERIENCE

DevOps Intern | *DataServ* | St. Louis, MO *May 2026 – Present*

- Developed and maintained SQL Server stored procedures and client-specific database configurations supporting enterprise accounts-payable automation workflows across 20+ client environments.
- Standardized invoice-import workflows by applying consistent database and configuration changes, then validating imports end to end.
- Configured separate confidential-document viewing and deletion access groups in internal administrative tools to distinguish access permissions by operation.
- Performed end-to-end testing, troubleshooting, and production validation for client-facing configuration and workflow changes, verifying expected behavior during deployment.

Independent PC Builder | *Self-Employed* | O'Fallon, MO *Nov. 2024 – Feb. 2025*

- Designed, assembled, and sold 8 custom desktop PCs tailored to client performance and budget requirements, generating \$6,500+ in sales.
- Diagnosed hardware and software issues and completed performance and stability checks before delivery.

Panera Bread | *Team Member* | O'Fallon, MO *Jan. – Aug. 2025*

Waterway Carwash | *Detailer* | O'Fallon, MO *Nov. 2022 – Jan. 2025*

PROJECTS

Quine-McCluskey Boolean Minimizer with Visualization | C

- Implemented the Quine–McCluskey algorithm as a C command-line tool to perform exact Boolean expression minimization from input minterms.
- Developed a multi-stage reduction pipeline that groups and combines terms, generates a prime-implicant coverage chart, and selects a minimal expression.
- Used bitwise operations, dynamic memory allocation, and custom data structures to represent and manipulate Boolean terms.

Farkle Dice Game | HTML, CSS, JavaScript

- Developed a browser-based implementation of the Farkle dice game, translating game rules into JavaScript logic.
- Implemented turn-based state management, dice rolling, scoring calculations, and win conditions.

SKILLS

- Languages:** Python, C, C#, JavaScript, SQL
- Databases:** SQL Server, MongoDB
- Technologies:** .NET, WPF, HTML, CSS
- Tools:** Git, GitHub, Bitbucket, Jira, SSMS, Visual Studio, VS Code
- Concepts:** Data Structures, Dynamic Memory Management, Relational Databases

LEADERSHIP EXPERIENCE

Production Tech Team Lead | BreakDown STL *Apr. 2023 – May 2025*

- Led technical operations for nonprofit live events reaching 2,000+ attendees, coordinating production workflows across tech, stage, and social-media crews.
- Mentored and coordinated a 5-person production team throughout the year.

HONORS & AWARDS

High Dean's List — University of Missouri College of Engineering *Spring 2026, Fall 2025*

Mizzou Scholars Award (35 recipients) — University of Missouri *2025 – 2029*

Bright Flight Award (ACT Superscore: 34) — Missouri Department of Higher Education *2025 – 2029*
